

To Whom it may Concern,

I am Broderick's High School Lacrosse Coach and I have had the privilege of knowing him for about a year now. He has expressed his dreams of continuing his education at the collegiate level while majoring in Business and I could not recommend him enough. Academics are a strong point for Broderick as he excelled in the classroom with an outstanding GPA and ACT score. With excelling in academics, he also does so while playing a sport. Being a collegiate athlete myself, I know how hard it is to be great in the classroom and on the field, this is why I believe he will be a great representative of your program and standards.

Being his coach, we get updates weekly on how he is in the classroom and the teachers have nothing but good words for him. He is polite, respectful, and willing to help others around him when he can. He is type of person to slow things down so that others can truly understand the topic being discussed. His work ethic on the field, after, and before, practice just shows me how much time he is willing to do something to get it right. Broderick is also a captain on the lacrosse team as his leadership skills do not go unnoticed. Overall, I think his discipline, kindness, hard work, and leadership skills will be a valuable asset to your program. I know that he will have a positive impact at your school.

Please feel free to reach out at: chadrwalters@gmail.com if you would like to further discuss Broderick's and what he means to our program and the people around him.

Thank you,

Chad Walters MBA, CPT, CSCS
